Data analyst focused on forecasting, fraud detection, and business reporting using Python, SQL, and Power BI.

Skills

Programming Languages: Python, SQL

Tools: Power BI, Excel, Git

Languages: English (Fluent), Greek (Native)

Work Experience

BCG X, Lloyds, Quantum, Tata • Data Analytics Job Simulations (Forage)

Sep '25 – Dec '25

- Performed **SQL-based customer and revenue analysis** to identify churn risks and campaign opportunities.
- Built **Power BI dashboards** to track KPIs such as churn rate, campaign performance, and anomaly indicators.
- Translated analysis into **structured business insights** supporting retention and marketing decisions.

Artillery Officer • Hellenic Army

Jan '20 – Mar '21

- Led and coordinated a team responsible for operational readiness, task planning, and structured reporting in a high-pressure operational environment.

Projects

Energy Demand Forecasting — Data Center Capacity Planning (Python, Prophet, Power BI) | [Link](#)

- Built a **30-day energy demand forecasting model** in Python to analyze data-center load patterns and support capacity planning scenarios.
- Analyzed renewable energy scenarios and estimated up to ~70% potential emissions reduction.
- Delivered an interactive Power BI dashboard for regional comparison and reporting.

Credit Card Fraud Detection — Fraud Detection Model (Python, Scikit-learn) | [Link](#)

- Trained multiple fraud-detection models on **284k transactions in a highly imbalanced dataset (0.17% fraud)**; Random Forest achieved ~**90.6% F1-score**.
- Evaluated model performance using **ROC curves and cost-based trade-offs**.

Solar Energy Forecasting — Time-Series Forecasting (Python, Prophet, Power BI) | [Link](#)

- Built a **7-day time-series forecasting model using Prophet** to estimate short-term solar production patterns.
- Delivered a Power BI dashboard comparing historical and forecasted output.

Education

National & Kapodistrian University of Athens

Certifications

IBM Data Analyst Professional Certificate | IBM

IBM Data Science Professional Certificate | IBM

SQL Associate | DataCamp
